collection advantages

Variety of shapes

The Silent Blocks is an acoustic novelty, thanks to which choosing a right shape of the acoustic panel for the interior will become as easy as ABC without compromising the excellent acoustic parameters.

Lightness of panels

The lightness of the panels makes them work perfectly not only as the wall panels, but also the ceiling panels and allow you for creating the countless creative designs. Get crazy with the form of the Silent Blocks and show that the acoustics do not have to be boring.

Acoustic parameters

Sound absorption coefficient α_w according to PN-EN ISO 11654:1999 - **0,85 (H)**
Sound absorption class acc. to PN-EN ISO 11654:1999 - **B**
